PROJECTS

BookMySlot - Appointment booking system ([Github](#)) Reactjs, Nodejs, Expressjs, MongoDB

BookMySlot is a MERN Stack Application for connecting professionals with consumers via booking appointments. This application was developed as part of an academic project and achieved a position in the top 7 teams.

Keeper - Note taking web app ([GitHub](#)) Reactjs

This is a note taking app similar to Google's keep notes made using only React and Material UI components. Concepts like Props and state, react hooks became stronger.

Blog Website ([Github](#)) Node.js, express.js, EJS

The application will allow users to create, view, update and delete blog posts. Posts will not persist between sessions as no database is used in this version of the application.

SKILLS

Languages : C++, JavaScript

Tools : Git, Github, Figma, Postman

Frontend : Reactjs, Bootstrap, HTML, CSS, EJS

Backend : Nodejs, Expressjs (Beginner)
